Ntinda, Kampala

RE: Thank you for the opportunity to learn and intern at thinkIT

Dear Mr. Gitta,

Thank you so much for the incredible opportunity to intern with ThinkIT Limited over the past eight weeks. It has been an enriching experience, and I'm truly grateful to have worked under your leadership and alongside such a supportive team.

This internship has been instrumental in helping me build and refine several key skills that I'm confident will shape my future career. I enjoyed the machine learning week, and I'm eager to use the knowledge I gained to my personal project and next semester as we shall be having it as a course unit.

While I did encounter a minor challenge with my laptop's performance, particularly during the Apache Fineract week, I was fortunate to run the necessary components using Hanington's PC. This small hurdle did not impact from the overall positive and valuable experience I had.

I'm also grateful for the support I received throughout my time at ThinkIT. Special thanks to Ms. Allen Nabulime, Mr. Andrew Ssegayi, Mr. Busoboze Evans, and Mr. Busingye Joshua for their consistent guidance and assistance along the way.

I consider this an outstanding learning journey. This experience has given me a clear direction in my career. I'm truly grateful for the opportunity.

Yours sincerely,
Katende Derrick Elvan
